

storage system for 10 or 6 pair of ski/snowboard

data sheet:

- ⇒ height: 53 cm
- ⇒ depth: 85 or 55 cm
- ⇒ space between frames: approx. 40 cm
- ⇒ save and clear storage
- ⇒ storage above the ground
- ⇒ flexible access
- ⇒ easy removing

usage:

Mount the frame with hinge on a wall approx. 180 cm height.
You can swing the frame like a page of a book. Now you can access easily each clip.

This storage system is perfect for small rooms.
50 pair of skis needs less space than 2 m of a wall.

add on:

If you need the space otherwise (e.g. for bicycles in summertime), you can remove the frame easily.
